

Brainy Bingo

Flash Card Game

Multiplayer

Equipment

- ★ [UpSparks Flash Cards](#)
- ★ [UpSparks printable bingo cards - free download](#)
- ★ Bingo chips, marker, pencil, coins, etc.

How to play

1. Select one player or a parent/teacher to be 'caller' for the game
2. Hand out a [bingo card](#) to each player (each card must be different)
3. 'Caller' shuffles the flash cards thoroughly then places the deck in front of them (answers facing down)
4. The 'caller' then reads out the top facing card question
5. Players mark off each square (using chips, marker, pencil, coins, etc.) containing the answer to the caller's question.

Brainy Bingo

Flash Card Game

Multiplayer

Winner

- The **first player to mark off a line** (row, column, or diagonal) on their card with all **correct** answers; and **call out BINGO!**

BINGO				
40	3	70	22	35
2	56	96	32	42
77	66	0	4	120
90	64	27	44	14
50	110	28	11	80

77	66	0	4	120
90	64	27	44	14
50	110	28	11	80

Expand the game

- Have players create their own Bingo cards using the [UpSparks blank card template](#). Make sure players don't duplicate numbers and keep in mind that some answers (eg. 0, 12, 24, 36) occur more than others (eg. 1, 25, 49, 64, 144).
- Extend the game by requiring the winner to fill their whole card (this can be a long game)
- Try 'Knockout Bingo', where the game is inverted and players are knocked out as they call out BINGO! The winner is the last player left.
- Have your caller throw in some humor using [classic Bingo nicknames](#): "One little duck multiplied by legs eleven!"
